PAST COURSE COMMENTS

- *“Everyone was very supportive and provided an environment that enhanced my learning.”*
- *“Truly was a positive learning experience as my first clinical introduction to BAMC. Thank you.”*
- *“All are informative and all instructors were helpful and non-intimidating, which makes for better learning.”*

The American Heart Association strongly promotes knowledge and proficiency in BLS, ACLS and PALS and has developed instructional materials for this purpose. Use of these materials in an educational course does not represent course sponsorship by the American Heart Association. Any fees charged for such a course, except for a portion of fees needed for AHA course materials, do not represent income to the Association.

ACLS SKILL TESTING AND VERIFICATION SESSION

“HeartCode ACLS Anywhere,” a program developed by the American Heart Association, is an alternative to spending 6 to 8 hours in a classroom meeting ACLS Renewal requirements.

ACLS Anywhere is a CD-based, self-directed learning program using microsimulation technology and realistic patient scenarios which allows you to complete the required coursework at your own pace and at your convenience.

Successful completion of the program, paired with verification of your acquired skills by an AHA-ACLS instructor, meets the requirements for ACLS Provider status. The program is also approved for CME credit through the ACCME.

Ordering Process – HeartCode ACLS Anywhere:

- Purchase the CD ROM via website: Product search – Search by word: ACLS Anywhere – order item #80-1450. Your cost for the CD ROM is \$120 plus S&H and tax. The skills test is conducted for a fee of \$50.
- Complete the cognitive computer-based learning. You will receive two certificates upon successful completion:
 - Continuing education units and
 - A HeartCode ACLS Anywhere certificate
- Present a valid HeartCode ACLS Anywhere certificate to the ACLS instructor at the Skills Testing Site. You must present the certificate the day of the testing, so please have it with you for registration.
- Successfully complete skills testing administered by an American Heart Association ACLS instructor.
- Receive ACLS Certification Card.

ADVANCED CARDIAC LIFE SUPPORT

*Fall 2010 Renewal and
Provider Course Schedule*

**BAY AREA
MEDICAL CENTER**

Advanced Cardiac Life Support Courses

COURSE DESCRIPTION

The Advanced Cardiovascular Life Support (ACLS) Course is designed for healthcare providers who either direct or participate in the resuscitation of a patient, whether in or out of hospital. In this course, you will enhance your skills in the treatment of arrest and peri-arrest patients through active participation in a series of simulated cardiopulmonary cases.

These simulations are designed to reinforce important concepts, including:

- Identification and treatment of medical conditions that place the patient at risk for cardiac arrest
- The Basic Life Support (BLS) Primary Survey
- The ACLS Secondary Survey
- ACLS algorithms
- Effective resuscitation team dynamics

The goal of the ACLS Course is to improve the quality of care provided to the adult victim of cardiac arrest or other cardiopulmonary emergencies.

DATES & TIME
